

Longboard Pharmaceuticals to Participate in Cantor Fitzgerald's Virtual Rare Orphan Disease Summit

March 23, 2022

SAN DIEGO, March 23, 2022 (GLOBE NEWSWIRE) -- [Longboard Pharmaceuticals, Inc.](#) (Nasdaq: LBPH), a clinical-stage biopharmaceutical company focused on developing novel, transformative medicines for neurological diseases, today announced that members of its senior leadership team will participate virtually in the *Rare and General Epilepsy and Seizure Disorders* panel during Cantor Fitzgerald's Rare Orphan Disease Summit, taking place March 29–30, 2022.

Panel Details:

Title: *Rare and General Epilepsy and Seizure Disorders*

Date/Time: March 30, 2022, at 2:45 PM ET

The presentation will be available to registered attendees only. If you have interest in participating in the Cantor Virtual Rare Orphan Disease Summit, please reach out to your Cantor Fitzgerald representative for more detail.

About Longboard Pharmaceuticals

[Longboard Pharmaceuticals, Inc.](#) is a clinical-stage biopharmaceutical company focused on developing novel, transformative medicines for neurological diseases. Longboard is working to advance a portfolio of centrally acting product candidates designed to be highly selective for specific G protein-coupled receptors (GPCRs). Longboard's small molecule product [candidates](#) are based on more than 20 years of GPCR research. Longboard is evaluating LP352, an oral, centrally acting 5-hydroxytryptamine 2c (5-HT_{2c}) receptor superagonist, with negligible observed impact on 5-HT_{2b} and 5-HT_{2a} receptor subtypes, in development for the potential treatment of seizures associated with a broad range of developmental and epileptic encephalopathies. Longboard is also evaluating LP659, a centrally acting, sphingosine-1-phosphate (S1P) receptor subtypes 1 and 5 modulator, in development for the potential treatment of multiple neurological diseases, and LP143, a centrally acting, full cannabinoid type 2 receptor (CB₂) agonist, in development for the potential treatment of central nervous system (CNS) diseases and disorders.

Forward-Looking Statements

Certain statements in this press release are forward-looking statements that involve a number of risks and uncertainties. Such forward-looking statements include statements about Longboard's participation in the upcoming conference, Longboard's clinical and preclinical programs, ability to develop and deliver medicines, and focus. For such statements, Longboard claims the protection of the Private Securities Litigation Reform Act of 1995. Actual events or results may differ materially from Longboard's expectations. Factors that could cause actual results to differ materially from those stated or implied by Longboard's forward-looking statements are disclosed in Longboard's filings with the Securities and Exchange Commission (SEC). These forward-looking statements represent Longboard's judgment as of the time of this release. Longboard disclaims any intent or obligation to update these forward-looking statements, other than as may be required under applicable law.
